Preface

The highest responsibility of any university is its march towards excellence. With this motto, the University of Science & Technology Meghalaya (USTM) has continued to function and I have great pleasure in placing before you the Sixth Annual Report of USTM covering the period from 1st April, 2017 to 31st March 2018.

The USTM is an institution dedicated to the cause of high quality science and technology education and advanced research in frontier and cutting edge areas leading to the creation of a university where innovation, invention and entrepreneurship remain the perpetual focus and thrust. We believe that Science and Technology will build a new India that fulfills the dream of millions of people in this country.

Dr P G Rao
Ph D (IIT,M), FNASc,
FIE, FIChE, FAPAS, HFABP

USTM is a young university. The idea has taken shape after two years of deliberations carried out by the Education, Research and Development Foundation with eminent educationists, former Vice Chancellors, distinguished scientists and public figures of the North East under the leadership of Mr. Mahbubul Hoque, an educationist and Chairman of the ERD Foundation. I am fortunate to have joined the University family on 2nd June 2014 as its Vice Chancellor.

The year has been a wonderful and active one with number of academic programmes and increase in the number of students taking admission at USTM. The progress of work during the year in each school is presented through list of staff, student's strength, publications, books published; seminars attended/ conducted and research projects ongoing. Eight Ph D scholars have successfully become eligible for the award of the degree working on a socially relevant problem of North East. The state regulatory agency MPURB has made it's inspection of the university during the year.

The university has signed MoU with Indian Institute of Food Processing Technology (IIFPT), Ministry of Food Processing Industries, Govt. of India; National Institute of Pharmaceutical Education and Research, Guwahati; ICT Academy which is endorsed and recommended by NITI Aayog (National Institution for Transforming India Aayog) for greater academic collaboration and also for academic mentoring of the University. Numbers of MoUs have been signed with other agencies for academic progress.

The university community was blessed with the presence of dignitaries like Prof Jagdish Kumar, VC, JNU, New Delhi; Prof Girish Ch Tripathi, VC, Banaras Hindu University; Prof Ashutosh Ghosh, VC, Calcutta University; Prof Sanjay V Deshmukh, VC, Mumbai University; Kailash Satyarthi, Nobel Peace Laureate; Mani Shankar Aiyar, former DONER Minister, Dr Mukul Sangma, Chief Minister, Meghalaya; Prof Gautam Biswas, Director, IIT Guwahati; Dr BS Tomar, Director, BARC; Prof Ved Prakash, Chairman, UGC; Shri V Shanmuganathan, Governor of Meghalaya; Shri PB Acharya, Governor of Nagaland and other VC's of the universities in the North East and outside in various programmes.

The Hon'ble Chancellor of the University has received the Visionary Edupreneur 2017 Award conferred by Rethink India which was handed over by Sri Manish Sisodia, the honourable Deputy Chief Minister of New Delhi in the presence of the former President Shri Pranab Mukherjee in New Delhi. The Chancellor of USTM has been the first person from the North East India to receive this honour. He also received "Maulana Abul Kalam Azad Memorial Award" conferred by the Barak Education Society, Silchar.

The University has started its journey with a mission and vision to create an inclusive, barrier free and open environment for higher education. The founding of this University is an investment in the future of this nation and in the future of generations of youth. I appeal to everyone associated with this University to give nothing less than the best.

I thank the Hon'ble Chancellor, Mr. Mahbubul Hoque for his vision and dynamism with which he is nurturing the University. The endeavor is to create a University of international standard in this part of the nation. We, the University Community shall stand up as a team and make it happen. I thank the Faculty, Staff, Students, Advisors and ERD Foundation for their cooperation and support.

P.G.Rao
Vice Chancellor, USTM

From the Chancellor's Desk

It is said that when a team has the same goal, they're more likely to perform better by bringing out the best in each other. The goal of USTM is to become a world class university—an institution where everyone is directed towards upholding its position continuously. The journey that began with 6 students and 5 faculty members in the year 2011 now has reached newer heights with strength of more than 5300 students and 200 faculty members. This leap was possible because of the trust & belief of the students and the blessings & support of many eminent personalities, academicians community as a whole and also my strong team, which made USTM one of the fastest growing private Universities in the entire North East India having all the statutory approvals of UGC, AICTE, NCTE and BCI etc.

I am very grateful to the Members of the Legislative Assembly of Meghalaya, especially to the then Chief Minister, Dr. Donkuper Roy and Hon'ble Former Governor of Meghalaya, Shri R S Mooshahary who have given the birth of this university.

You will be happy to know that USTM had already hosted a large number of National and International seminars, Conferences and Workshops on topics of current significance where high level dignitaries including Former President of India Late Dr. A.P.J. Abdul Kalam, ; Shri AS Kiran Kumar, Chairman, ISRO; Shri Kailash Satyarthi, Nobel Peace Laureate; Dr BS Tomar, Director, BARC; Governors and Chief Ministers of different States, Vice Chancellors of some of the top class Universities of the country and other distinguished guests had graced on many such occasions.

It is disheartening to note that no University in India could be able to find its place in the top 100 Universities of the world. We have set up the milestones under the Mission USTM as "Mission Bronze", to make the University as one of the Best in the East by 2020, "Mission Silver", to become one of the Best in India by 2025 and the "Mission Gold", to become a World Class University by 2030. My colleagues are working relentlessly for achieving this dream with the constant guidance, supervision and expertise from renowned academic fraternity of the region.

Let us make an Oxford or Cambridge like University in this part of the country and I am quite hopeful that we can.

Hope everyone will support and pray for us to make it a world class destination of knowledge.

Mahbubul Hoque
Chancellor, USTM

ABOUT USTM

The University of Science & Technology, Meghalaya (USTM) is the first State Private University on Science and Technology in the entire North East India, sponsored by ERD Foundation, Guwahati. The University is being established in four adjacent plots of more than 400 acres of picturesque landscape surrounded by tranquil greenery in Assam-Meghalaya border just one km from G S Road, Baridua, 9th mile, opposite to CRPF Camp, Ri-Bhoi District of Meghalaya. It is about 85 kms from Shillong, the Capital of Meghalaya and 6 kms from Dispur, the Capital of Assam. The campus is well connected by rail and air which is only 15 kms from Guwahati Railway Station and 48 kms from Guwahati International Airport.

The University has been established under the provisions of the University of Science and Technology, Meghalaya Act (No.6 of 2008) enacted by Legislative Assembly of Meghalaya and notified vide Gazette Notification No LL(B)87/2008/21, dated 02.12.2008 of Government of Meghalaya. The University is empowered by the University Grants Commission, to award degrees as specified by the UGC under section 22 of the UGC Act, 1956. USTM has also received necessary approval from AICTE, New Delhi, BCI, NCTE, ERC, Bhubaneswar to run MBA, BALLB, LLB and B.Ed. courses respectively.

With more than two years of focused study on the educational needs of the region by leading Academicians, Scientists and a group of Vice Chancellors and educational administrators of the region, USTM has started its systematic academic process. The University is dedicated to the cause of high quality science and technology education and advanced research in frontier and cutting edge areas leading to the creation of a University where innovation, invention and entrepreneurship remain the cardinal focus and thrust. Facilities are being offered with this long term goal with special focus and thrust on the Science and Technology needs of this region. Creating the best graduates who can think, innovate and invent would remain the all time driving force of USTM. The University would direct all its efforts to create the needed Science and Technology manpower to foster relentlessly the economic and social development of the region in an inclusive manner.

USTM offers UG, PG and Ph.D courses under its different schools viz.

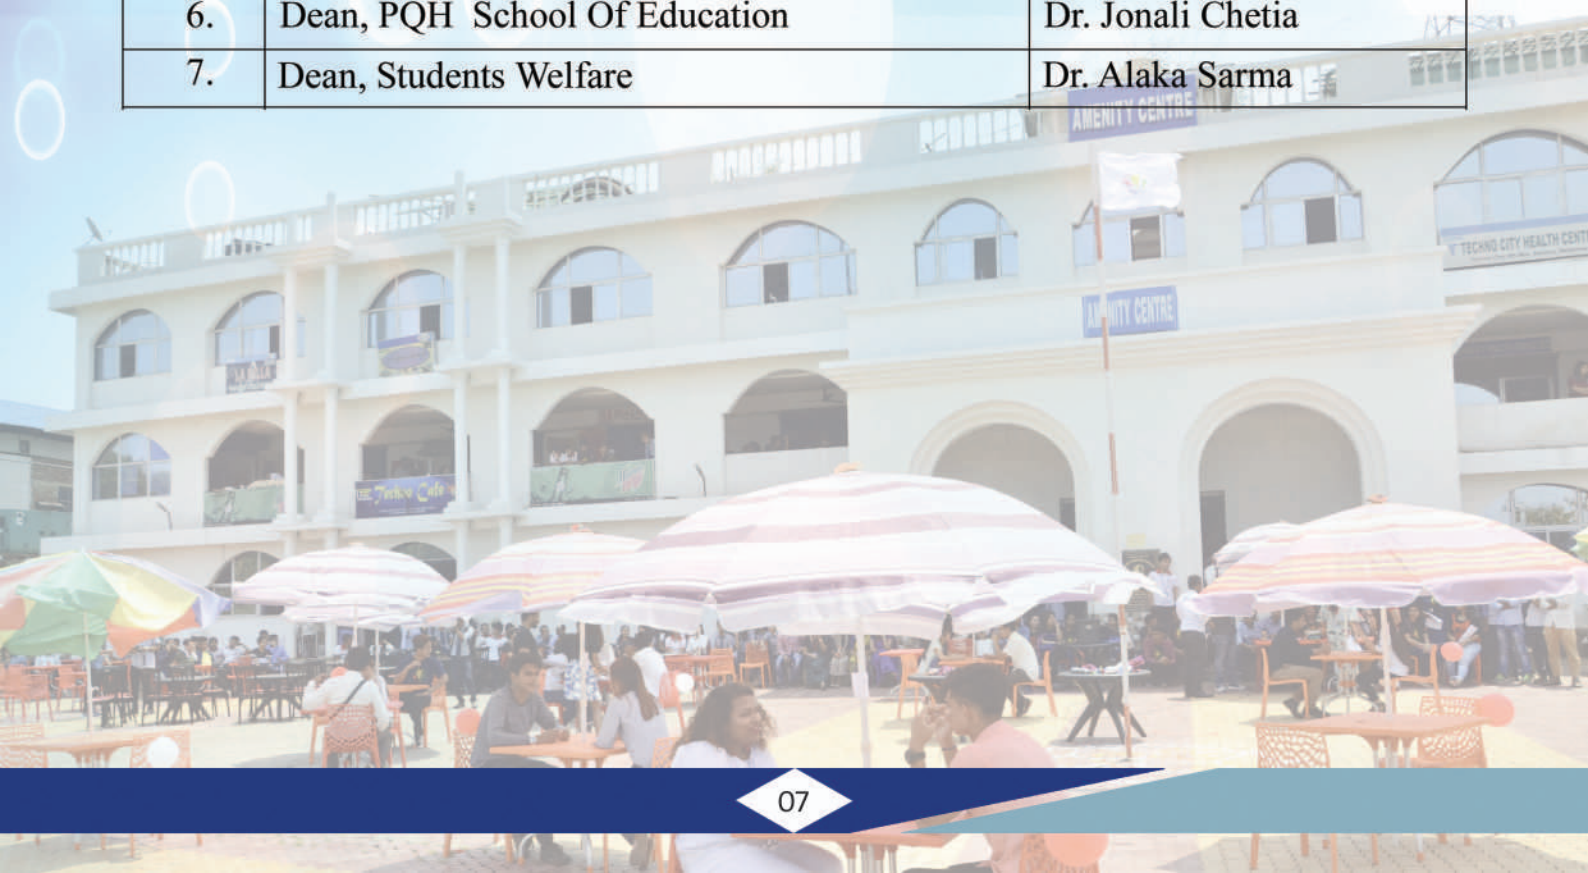

- School of Applied Sciences
- School of Allied Health Sciences
- School of Biological Sciences
- School of Business Sciences
- School of Engineering & Technology
- School of Social Sciences & Humanities
- PQH School of Education

UNIVERSITY SCHOOLS, DEPARTMENTS & PROGRAMMES

School of Applied Sciences

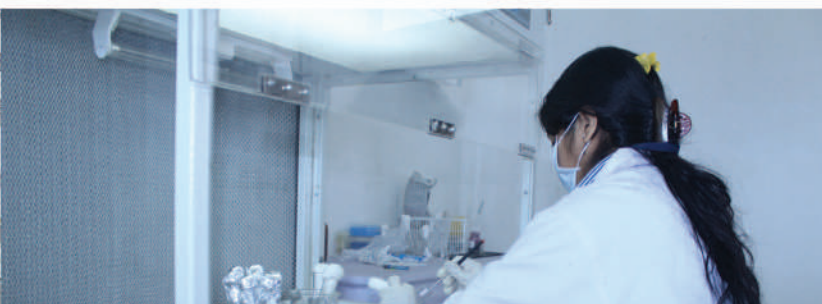

The School of Applied Sciences (SOAS) endeavors to impart education of fundamentals so that students can well appreciate the intricacies of day to day problems and attempt to solve applied problems. All academic programs emphasize the integration of the basic sciences within an interdisciplinary approach with the expressed intention of encouraging research, innovation and motivation of students to work within a diverse range of professional situations. The Mathematics department was newly incorporated while B.Sc.in Physics was also newly introduced. Details of departments and Courses under the School are given below:

School of Biological Sciences

The School of Biological Science (SBOS) aspires to excel in research and teaching with the mission to create new knowledge about biological processes and principles, and to disseminate the same by educating and mentoring students/scholars, about both the factual knowledge and experience of discovery in biology. We aim at enriching knowledge on the natural resources of the region which are yet to be exploited. Special importance is given on the human resource development by way of training the young talents from the North East, so that competent groups of scientist as well as technical personnel are available for advanced R & D in the country. The main objective of the School is to become a pioneer of modern interdisciplinary biological sciences by integrating emerging disciplines with biological sciences. Details of departments and Courses under the School are given below:

School of Business Sciences

The main objective of School of Business Sciences (SBUS) is to provide quality management education and cater to the dynamic needs of the corporate world. This millennium will be an era of information where new paradigm for management and leadership will be knowledge and connectivity. The course curriculum at SBS has been structured in such a way that the students imbibe the necessary basics and get exposed to specialized knowledge, prerequisite for becoming a proficient manager & corporate leaders. The Department of Business administration, USTM offers full time BBA & MBA (approved by AICTE) programmes. The focus of the department is on imparting quality management education and the course curriculum has been designed keeping in mind industry specific needs. It is based on teamwork and uses a number of pedagogical methods, including case-studies with a lifelong framework of practical and intellectual skills that will serve them throughout their career. Details of departments and Courses under the School are given below:

School of Engineering and Technology

The School of Engineering and Technology (SOET) envisages ushering a new era of technical education in the North Eastern part of India and proposes to introduce several courses and programmes. The Deptt. Of Computer Science and Electronics under the school has start functioning to meet the growing demand for qualified professionals in the field of Information Technology. This programme is inclined more toward application development and thus has more emphasis on latest programming language and tools to develop better and faster applications. The programme in Electronics focuses on electronic components and circuits that are used in computers, mobile phones and other modern instruments for better control and performance. Details of departments and Courses under the School are given below:

School of Social Sciences & Humanities

The School of Social Sciences and Humanities [SSSH] has been established with the objectives of inculcating scientific temper and enhancing technical knowledge with humane and social values, besides, of course, emphasizing on “humanistic-social stem” of science and engineering curricula. It envisions to develop a hub of teaching and research having a global impact through superb and finest programmes, as evident from the various curricula for undergraduate and post-graduate students. The School has a much articulated role in preparing students to be leaders and global citizens, and training them how to work, lead and strive in cultures around the world. It intends to convey a message favouring application of science to common purpose of life. Social Work emphasizes on producing young trained professionals who understand the meaning of social work and position them to take up jobs in various social service sectors in the region. Students are exposed to real environment by organizing study tours, rural camps, seminars and panel discussions on burning issues faced by the poor and deprived sections.
