Learning Management System (LMS)

UNIVERSITY OF SCIENCE & TECHNOLOGY MEGHALAYA

Foundation of the Quantum Mechanics | Part-I

Phenomena involving macroscopic objects can be explained by laws of classical physics.

1. Galilean Mechanics \rightarrow Motion of Macro-objects.
2. Kepler's laws \rightarrow Planetary motion
3. Newton's Law of motion
4. Newton's Inverse $1/r^2$ laws of gravitation.
5. Coulomb's law of attraction betⁿ charged particles.
6. Lorentz force on moving charged particles.
7. Faraday's law on electromagnetism
8. Maxwell's unification of electromagnetism
