UNIVERSITY OF SCIENCE & TECHNOLOGY MEGHALAYA

LET US MARCH

Vision:

To empower and inspire the lives of the people by engaging students and faculties and through various awareness and welfare activities on education, health, economy, environment and livelihood.

Mission:

USTM is determined to bring about a systemic paradigm shift the in the status of education, economy, health and welfare of the neighboring communities and to create a sense of belonging for the university. The main thrust is to create better and sustainable livelihoods for the in situ communities through symbiotic engagement of the students and the university on the one hand and the community on the other.

Convener : 9954708001 0361-2895030

OUTREACH POLICY

Preamble:

'Outreach' is a term that is often used but rarely defined. It applies to many policy fields, including education and health services, and essentially entails services being taken out from their normative and mainstream institutional settings and being provided in local community settings. In the welfare-to-work arena, outreach services are used to:

- Develop the lives of the rural people
- Engage rural communities.
- Deliver welfare-to-work services in local settings and environments.

Outreach services may also be defined as those that draw on partnerships and networks with other service providers to deliver and promote welfare-to-work services in local communities. Outreach services can be employed to raise the profile of (more mainstream) services and inform potential communities of the provision and help that is available to them. Outreach services can also be used to reach and engage specific group of people and those who do not tend to use mainstream services, i.e. those people who are 'harder to reach'. Outreach provision can then be used as a means of delivering welfare-to-work services to these communities, away from mainstream settings and in more informal and relaxed surroundings.

Vision:

To empower and inspire the lives of the people by engaging students and faculties and through various awareness and welfare activities on education, health, economy, environment and livelihood.

OBJECTIVES OF THE POLICY:

- 1. To launch necessary reforms in the community for eradication of community evils.
- 2. To create sounds ground for planning and action.
- 3. To create a sense of cooperation integration and unity among the people.
- 4. To motivate the people to take better participation in the developing community programs.

5. To highlight the causes of various problems affecting the community and hinder the way of progress and development.

6. To implement programs required for the fulfillment of people basic needs and to develop better understanding among the people about the issues and needs.

7. To mobilize the resources to create a suitable ground for the basic needs completion and eradication of problems by bringing coordination between the individuals, groups and organization to focus their point and challenge their objectives for fulfillment

8. Develop a passion and brotherhood towards community, affected people/animals and destitute.

9. To train the students to develop skill and aptitude for problem solving. The skills developed include social skills communication skills, management skills, leadership skills, analytic skills, perceptual skills etc.

10. For the students to acquire social values and deep understanding of unity, integrity and brotherhood of the country and come out as a socially committed responsible professionals who can strengthen the foundation of the nation.

Organizational Principles:

All the outreach activities conducted by the university ensure the effectiveness on the community for long term. The departments conduct the welfare activities at independent level and as per the event calendar of the university, though it is mandatory to submit a filled up report to the convener after the accomplishment of the event.

Outreach Activities:

USTM NEIGHBOURHOOD MISSION:

USTM Neighborhood Mission (UNM), is the initiative taken by the university with an aim to accelerate the all-round development of the communities living in the neighborhood of the campus.

The following are the initiatives taken up by the university under the outreach mission:

Freeship and Scholarship: The state of Meghalaya has a high rate higher education (UG/PG level) drop outs. To reduce the ratio university is offering free ship and scholarships for the aspirants in the vicinity of 40 KM radius of the university.

Regular Welfare Activities: Departments are conducting Regular Awareness programs on health, gender equality, environment, adult education and livelihood opportunities in the neighboring villages for the holistic development of the students in collaboration with village dorbars, local school authorities and community centres, etc.

Environmental Awareness: National Swatcha Bharat Abhiyan, Planation drives (fruits) Awareness program on Vermicomposting and Food product development, etc are organized.

Social Awareness: Programs on World Population Day, World literacy day, Children's day, various awareness programs to sensitize about the violation of child labour law, etc are conducted and observed with local communities. A non-formal education centre "HOPE" for the adult illiterates in the village of Bara Killing where the students teach the villagers on every Friday and Saturday is also established for the greater benefit of the rural population.

Health and Hygiene Awareness: Awareness programs on women's and child health –hygiene, Awareness program on HIV AIDS, Eye Check-up Camps, Health camp on free diagnosis of Blood pressure, Haemoglobin percentage and Blood group determination, etc. are regularly conducted.

For Intellectual development sessions on Career counselling for class IX and class X students are conducted and also distributed free school stationaries and story books to the school children to generate and encourage the reading habits.

Financial Literacy and Sustainable Development Initiatives: Programs on financial literacy and Inclusion, Government schemes, etc are organised to create awareness among the communities to avail benefits from different schemes of the Government. To create financial sustainability an "Organic Vegetable Hut" is established inside the university campus where the local venders are selling their goods twice in a week on every Wednesday and Saturday.

Other Outreach Initiatives: Bus shades and public toilets are built for the benefits of the society. A planned plantation and beatification initiatives have been taken by the university in the connecting road to the campus for creating awareness on environment and cleanliness among the local communities.

Committee:

Having an outreach committee is necessary for managing organization's efforts right from planning to the implementation and monitoring stages. An outreach committee helps strategies go as planned while identifying the essential steps to be taken and discussing objectives, timelines, resources required, and relationship building strategies. By meeting up periodically, the outreach committee would handle all aspects of the programme and would be accountable for its success, so the organization should definitely form one in the community targeting for structure and organization.
