MOU IMPLEMENTATION POLICY

Why Collaboration?

Collaboration in higher education is the teaming up with other higher education institutions, industry/corporate, research institutes, NGO's and any other organisation which can pursue for mutual benefit for the institution and work together towards sharing educational and research dreams, achieving common goals, and enhancing collective effort in meeting educational needs in focus.

Why this Policy?

USTM signed nearly 100 MoU s with various organizations for collaborative activities and therefore to execute all the terms and conditions mentioned in the different agreement, university management felt to set up a policy for transparent mechanism to transform the objective of MoU into action in association with partnering organizations.

Why MoU.... ?

1. Launching of joint research activities, exchange of faculty members and submitting research proposals to funding organizations.
2. Collaboration of various forms of faculty development & Professional training.
3. Conducting students and scholars exchange between the organisations including Skill based training for the students.
4. Jointly organising seminar, workshop & Conference etc.
5. Conducting joint consultancy & Research as an when needed
6. Exchange of guides and mentors for the student projects.
7. Collaborative work for Development of innovation, start up and entrepreneurship.
8. Internship programs, projects, on the job training for the students.
9. To organise jointly cultural, co curricular, extracurricular & sports activity
10. Any other such kind of collaborative activity as mutually agreed upon.
11. Inviting resource persons for Talk, discussion, seminar, viva voce and presentations etc
12. Sharing of resources mainly Library and Lab facilities

Who will retain MoU Copy...?

Registrar will be the custodian of original copies of MoU and copy of the same to be given to all HoD to maintain the database for understanding about the profile and objective of MoU. Once a new MoU is signed, it will be updated time to time to all the departments for information.

Renewal of MoU :

Director Research will maintain the database of MoU along with date of signing & date of expiry. Before three month of the expiry of MoU, a request letter to be sent to the organisation for renewal along with activity report by the Registrar.

MoU Implementation Committee (MIC):

To look after the activities a committee to be formed namely MoU Implementation Committee (MIC) by the Hon VC as per following structure. The tenure of committee will be for 2 years. All Head of the Departments or their nominee will be the members of the MIC. Research Division will be the care taker of the committee and do all needful activity time to time.

Sl. No	Name	Designation
1	Chairman	Any Senior Dean
2	Vice Chairman	Any Senior Professor
3	Coordinator	Director Research
4	Member	All HoD or nominated faculty by HoD
5	Organising Secretary	Dy. Registrar

MIC Meetings:

There must be one 6 monthly meeting to review the progress and advice for further action. Final meeting will be held after one year where besides yearly presentation of activities by each department and Annual Report as a whole to be presented by MIC

Recognition and Reward:

Few recognition and rewards to be given to individual or department as a whole for best performance in collaborative activities.

Role of Research Division:

Dean Research /Director Research will monitor day to day the implementation of the activities and will facilitate all coordination and communication with partner organization. All annual reports and activity reports are to be maintained for various reference and updating the same with IQAC and PR Department.

Responsibility of Department:

- Every department has to conduct 5 to 10 collaborative activities in each academic year choosing few partner organizations from the list of MoU depending on their profile to make the collaborative activity meaningful. .
- The nature of activities shall be seminar, workshop, student exchange, faculty exchange, student project, internship, on the job training, welfare and outreach, sports, cultural, etc.
- Among the activities one program must be in the form of seminar, workshop, conference, Faculty Development Program (FDP) which is relevant as per NAAC guideline or any other statutory authority
- Among activities there must be one activity related to welfare/ outreach
- Before finalisation of any activity approval to be taken from the committee/ coordinator so that uniformity in collaborative activities can be conducted with all organisations. 201
- Every Department will send the proposal to their counterpart department of the other institutions giving a copy to the coordinator of MIC with prior discussion/ information.
- A strong follow up will be made for the settlement of the proposal and in case of non receipt of response from the other side, information to be given to the coordinator.
- In case of not receiving response even after reminder the proposal may stand cancelled and therefore same proposal can be given to other similar kind of organisations.
- Every department must collect the faculty/department and infrastructure details well in advance for continuance of collaborative activities.
- It is the responsibility of the department to maintain good relation with the collaborating institutions.
- The coordinator will also send pleasantries to their counterpart especially on the occasion of New Year or after accomplishment of assignment.
- All plan and activities to be updated to PRO for publicity

Study Category of MoU

Before planning for any activity, proposal to be made after understanding the nature and category of the partner organization whether it is a University, Institute of Excellence , College , research institutions , schools , Corporate/Industry or NGO so that outcome can be made fruitful and appropriate .

Annual Collaborative Activity Report by each Department:

The department must submit the Annual Collaborative Activities report to the Chairman of the MoU Implementation Committee (MIS) along with future one year calendar of activity calendar for understanding.

Role of VC/Registrar:

To coordinate for renewal and also to invite head of the institutions time to time in all occasions of the university. Greetings to be sent on all major celebrations without fail. Research Division will coordinate in this regard.

Convention of Heads of MoU Signing organisation:

An effort to be given to invite all the head of the institution for a convention to discuss various issues related to the functioning of MoU and Future course of action. Chairman of MIC will fix the date after consultation with VC and few renowned participating organizations to ensure that at least 50% of the partner organizations are joining.

Note: In case of organisations with which the MoUs are not signed but many collaborative activities are done, a letter from the associating organizations can be collected to show the activities were done jointly.

Assam's 10 Govt Colleges sign MOU with USTM for functional collaboration

CHRONICLE NEWS SERVICE

GUWAHATI: To create a framework for collaboration, Principals from ten government colleges of Assam have signed a separate Memorandum of Understanding (MoU) with the University of Science & Technology Meghalaya (USTM) on Tuesday. The colleges are Pragjyotish College, Guwahati; Doomdooma College, Sibsagar; Commerce College, B.R.M. Govt Model College, Doomdooma; Dhing College, Nagaon; Habraghat Mahavidyalaya,

Goalpara; SBMS College, Sualkuchi; Haji Anfar Ali College, Doboka; Khagarjan College, Nagaon and Dhubri Girls' College, Dhubri. The MoUs have been signed by USTM vice-chancellor Prof GD Sharma and the principals of the respective colleges in the presence of USTM officials as well as the IQAC and NSS Coordinators of the respective colleges. Addressing the college principals, Prof GD Sharma termed the event of signing MOUs with colleges as a historic moment and said, "Now

the time has come that private and government colleges and universities work together to proceed for quality in higher education. Quality must be in dynamic forms, we cannot have stagnation in education. What society needs, we must provide." He said that education in terms of application is a new process of learning which is adding to knowledge. Through the MoUs the colleges can have many facilities available in the university, he added. Earlier, welcoming the participants in the MOU signing ceremony,

USTM director administration Dr Balendra Kumar Das said, "Education must be humanitarian. The goal must be to uplift society, the poor, the downtrodden and the lower middle-class people. Education must be collaborative education." The MoUs will facilitate joint collaborative research works between students, faculty and staff of the institutions. USTM will offer research scholarships for poor meritorious students for higher education on recommendation from the respective college authorities.

ADVANCED CANCER RESEARCH CENTRE TO BE SET UP AT USTM

USTM partners with Cachar Cancer Hospital for cancer research

CHRONICLE NEWS SERVICE

DISHWATI: The University of Science and Technology - Meghalaya (USTM) has joined hands with the Cachar Cancer Hospital and Research Centre (CCHRC) by signing a Memorandum of Understanding at Silchar on Monday to facilitate work on cancer research, education and awareness under the aegis of CCHRC.

The CCHRC has been making immense contributions by providing equitable and accessible healthcare services to cancer patients mainly from the underprivileged communities of Barak valley.

"The Northeast has the highest incidence of cancer in the country and is also burdened by a higher prevalence of risk factors and inadequate cancer treatment facilities."

The MoU was signed by renowned oncologist Padma Shri Dr Ravi Karman, Director, CCHRC and Prof G. D. Sharma, Vice-Chancellor, USTM in the presence of Mahabub Hogue, Chancellor, USTM, Dr RM Fata, Vice-Chancellor, Assam University, Silchar, Dr Sujit Kumar Nandi Parkayastha, former principal, Silchar Medical College & Chairman, Cachar Cancer Hospital Society, Dr Satya Ranjan Bhaattacharjee, Vice-Chairman, Cachar Cancer Hospital Society, Dr Bibhansu Deb, advisor, ERDF, apart from other dignitaries and guests.

After a warm initial exchange of the copies of the MoU, USTM Vice-Chancellor Prof GD Sharma

Mou Signing

said, "USTM and CCHRC shall collaborate to start Joint PhD Programme in Cancer and Biomedical Research. CCHRC shall offer support in the completion of Course work. We shall also start Fellowship Program in Clinical Oncology, Joint Bachelor and PG degrees in Hospital Management, Radiation Therapy Tech, Medical Lab Tech, Physician Assistant, Nurse Assistant, etc."

CCHRC director Dr Ravi Karman said that both the institutions shall work in collaboration to set up an Advanced Cancer Research Centre at USTM to carry out through put research in cancer related diseases especially the north-eastern region.

"We will extend facilities to a limited number of USTM students of USTM for Internship and short duration summer training programmes at CCHRC under the relevant guidelines. We will also provide necessary facility to the students and faculty of USTM to conduct various academic activities", he added.

Speaking on the occasion, USTM Chancellor Mahabub Hogue said, "CCHRC is a comprehensive cancer care facility where nearly 80% of the patients are daily wage workers, agricultural and tea garden labourers and nearly 75% are treated for free or at subsidised charges. From now onwards CCHRC will be an authorized centre for research activities at USTM and we will extend all academic support and offer individualised research etc."

Hogue said that joint research projects shall be submitted under joint supervision to the concerned govt. departments/agencies for funding so that cutting edge research can be pursued utilizing the expertise of both the institutions. The CCHRC will design courses on Cancer Biology for MSc and for

BSc students and USTM shall start the course from the next academic session, he added.

According to the MoU, specialized and short duration refresher courses, training programmes and project management courses on topics of interest to the government/Industry/Academia can be jointly offered at USTM or CCHRC.

CCHRC will extend necessary facilities and resources persons to organize talks, awareness programmes within or outside the University premises. Even time to time as part of their outreach initiatives. CCHRC will offer support to USTM in the completion of course work for all collaborative programmes and also help in joint development of curriculum for any such new programs. On the other hand, USTM Research Fellowships shall be offered to the employees of CCHRC joining such programmes.

Outreach activities like initiation of a Rural Clinic will be focused under the collaboration. Joint supervision shall be extended to Research Scholars to work on the development of Cell Lines and develop a Cell Culture Centre. Both institutions will collaborate to design and run some Joint Diploma Courses.

Sophisticated Laboratory Facilities will be shared to limited Research Scholars and Research Scholars of both organizations. The CCHRC will also design some Value added courses to be implemented in various programmes of USTM.

RCPSDC signs pact with USTM to start B. Voc. Course in rubber production

CHRONICLE NEWS SERVICE

GUWAHATI: The Rubber, Chemical & Petrochemical Skill Development Council (RCPSDC) New Delhi under the National Skill Development Corporation has signed a Memorandum of Understanding (MoU) with the University of Science and Technology Meghalaya (USTM) here on Wednesday to start Bachelor in Vocational Course on rubber production and some other courses to help improve the quality of the employable skills of the students of USTM.

As per the MoU, RCPSDC will assist USTM in aligning the curriculum with identified rubber sector qualification packs and national occupational standards for B. Voc and other course curricula related to Rubber. It will facilitate training and help in the provisioning of Master Trainers from the industry and develop industry linkage to enable the students to have practical training and skill development on the job. The MoU signing

ceremony was attended by Prof GD Sharma, vice-chancellor, USTM, Prasentit Dey, regional head, Rubber, Chemical & Petrochemical Skill Development Council New Delhi; Siladitya Sarkar

representing RCPSDC New Delhi; Anju Hazarika, registrar, USTM, apart from other officials. After signing the MoU, Prof GD Sharma said that USTM would be taking pre-

liminary steps for the implementation of relevant programmes which would aim to enhance the employability of students of USTM by equipping them with in-

dustry/business-relevant skills. "We will appoint and empower a committee to vet the courses and suggest suitable changes and arrange our infrastructure to carry out training batches, mobilise the trainees and assist

for promotional support to publicize the initiative for skill development and to facilitate mobilization of trainees.

Prasentit Dey said that the MoU is aimed at imparting extracurricular skill development training. "There are 6000 rubber industries which desire to recruit more skilled people in rubber technology but now there are only 4 or 5 universities that are imparting such skill courses. USTM can take the lead role in the NE states in imparting this skill in the region and help our students to get placements in the rubber industries."

Speaking on the occasion, Siladitya Sarkar said, "This signing of the agreement is basically to enhance the skill development in the space of rubber and rubber production and enhancing knowledge and skill of people engaged in rubber plantation and different activities involved in it." Various short, medium and long term courses would be undertaken to meet this objective.

RCPSDC signs MoU with USTM

Assam Rising
Guwahati, February 23: The Rubber, Chemical & Petrochemical Skill Development Council New Delhi under National Skill Development Corporation has signed a Memorandum of Understanding with the University of Science and Technology Meghalaya (USTM) here today to start Bachelor in Vocational Course on rubber production and some other courses in order to help improve the quality of the employable skills of the students of USTM. The MoU signing ceremony was attended by Prof G. D. Sharma, Vice Chancellor, USTM, Prasenjit Dey, Regional Head, Rubber, Chemical & Petrochemical Skill Development Council New Delhi; Siladitya Sarkar

representing RCPSDC New Delhi, Anju Hazarika, Registrar, USTM, apart from other officials. After signing the MoU, Prof. G. D. Sharma said that USTM would be taking preliminary steps for the implementation of relevant programmes which would aim to enhance the employability of students of USTM by equipping them with Industry / Business relevant skills. "We will appoint and empower a committee to vet the courses and suggest suitable changes and arrange our infrastructure to carry out training batches, mobilize the trainees and assist for promotional support so as to publicize the initiative for skill develop-

ment and to facilitate mobilization of trainees. Prasenjit Dey said that the MoU is basically aimed at imparting extra-curricular skill development training. "There are 6000 rubber industries which desire to recruit more skilled people in rubber technology but now there are only 4 or 5 universities that are imparting such skill courses. USTM can take the lead role in the NE states in the region and help our students to get placements in the rubber industries. Speaking on the occasion, Siladitya Sarkar said, "This signing of the agreement is basically to enhance the skill development in the space of rubber and rubber production and enhancing knowledge and skill of people engaged in rubber plantation and different activities involved in it." Various short, medium and long term courses would be undertaken to meet this objective. As per the MoU, RCPSDC will assist USTM in aligning the curriculum with identified Rubber Sector qualification packs and national occupational stan-

dards for B. Voc and other Course Curriculum related to Rubber. It will facilitate training and help in provisioning of Master Trainers from the industry and develop industry linkage to enable the students to have practical training and skill development on the job.
