Unveiling Excellence

One Day Workshop on
"Quality Paradigms"
- Theory & Praxis
24th May, 2022

Organised by
Department of Business Administration
UNIVERSITY OF SCIENCE AND TECHNOLOGY MEGHALAYA
Accredited **"A"** Grade by NAAC

In collaboration with: **Mizoram University**

About the workshop:

The paradigms of quality -the ways of thinking about quality and doing quality activities,have developed over time as a result of changes in market demands, technology, social systemsand other factors. The total quality management (TQM) paradigm for instance, involves customers and suppliers besides the mass production and statistical methods. It reflects what can be accomplished when ultimate customer satisfaction is prioritised. The new quality paradigm todayshifts its focus upward in the value chain, on creating customer value and user experiences rather than product quality. Embodying core values: guiding ideas, behaviours, and attitudes, when combined, contribute to day-to-day operations, and forms the first step in developing a quality culture. Quality culture develops through time as principles and values are passed down from one generation of employees to the next. Today, quality improvement and innovation are largely driven by digital transformation and the Internet of Things (IoT) and will continue to do so in the future. The workshop thus, provides a platform to explore the dimensions of the quality paradigms, and develop the commitment and purposeful management of change processes that are required to transform an organization's culture to embody quality.

Objectives:

- To highlight the different dimensions of quality paradigms - its relevance and implications in the operational stage.
- To evaluate the challenges and potentialities in the quality paradigm shift.

Who can Participate?

- Faculties
- Research Scholars
- Students

Dear Dr. Bhairab,

Thanks for the invitation, I would be happy to share my experience, knowledge and skill with the student community.
Our aim is to make North East India, the hub for highly skilled I.T. Professionals available for the global demand.

I would appreciate, if you can specify the expected time of the event on 6th JUNE'22.

Thanks & best regards

Abu Zakaria
